PRINT SPEC (FOR THE SCREEN PRINTER)

- ✦ **Back:** 300 × 400 mm, centred, top edge ~60 mm below the back collar. Two spot colours.
- ✦ **Front:** Van Trampers logo, 90 mm wide, left chest (wearer's left), ~75 mm below the shoulder seam. Full-colour logo as supplied, or a 1-colour version in the main ink if we keep it to a simple print.
- ✦ **Colours (hex, match to nearest Pantone/stock):** navy #1e3a5f · safari red #a93a2c · cream #f2e9d4. Navy tee uses cream + red; sand tee uses navy + red. Pin numbers and ribbon text knock out to the shirt colour.
- ✦ **Files:** `back_artwork_navy_tee.svg / .pdf` and `back_artwork_sand_tee.svg / .pdf` (vector, 1 unit = 1 mm, fonts embedded — ask the printer to outline text if their RIP needs it). Logo: `source/Van_Trampers_Logo_FINAL.jpg`.
- ✦ **Fonts:** Oswald (titles, hub names), Special Elite (typewriter dates), Nunito Sans (sea labels) — all Google Fonts, OFL-licensed.
- ✦ **Garment:** suggest a heavyweight cotton tee — navy, or sand/natural for the lighter look that matches the fridge map.
